1 **SEC. 2. PURPOSES.**

2 The purposes of this Act are as follows:

3 (1) To better ensure delivery of high-quality
4 special education and related services to students
5 with visual disabilities or who are deaf or hard of
6 hearing or who are deaf-blind through specialized in-
7 structional services and methodologies designed to
8 meet their unique language, communication, and
9 learning needs.

10 (2) To better ensure delivery of high-quality
11 early intervention services to infants and toddlers
12 who are deaf or hard of hearing or who are deaf-
13 blind and their families through specialized services
14 and methodologies designed to meet their unique
15 language, communication, and other developmental
16 needs.

17 (3) To foster the proliferation of research sup-
18 porting the development and evaluation of effective
19 and innovative assessments and instructional meth-
20 odologies consonant with the unique learning needs
21 of students with visual disabilities.

22 (4) To enhance accountability for the provision
23 of such services.

24 (5) To support the development of personnel
25 serving students with visual disabilities or who are
26 deaf or hard of hearing or who are deaf-blind.

1 **SEC. 3. FINDINGS.**

2 The Congress finds the following:

3 (1) When American author, Mark Twain, im-
4 mortalized Helen Keller’s teacher, Anne Sullivan
5 Macy, with the moniker “the miracle worker”, his
6 words, though meant as praise, reflect the mis-
7 conception that educating individuals with disabil-
8 ities is a nearly insurmountable task requiring ex-
9 traordinary feats performed by gifted and saintly
10 persons. Rather, the work of teaching children with
11 disabilities can and does occur when committed and
12 qualified but everyday special educators are properly
13 prepared and supported to practice their professions.
14 Yet, the educational systems within which they act
15 must also be held accountable for results.

16 (2) In 1817, Thomas Hopkins Gallaudet and a
17 deaf teacher, Laurent Clerc, opened the first Amer-
18 ican school for deaf students—the American School
19 for the Deaf—with young Alice Cogswell as its first
20 pupil. Ultimately the school grew into a national in-
21 stitution and the mother of many other schools. As
22 Alice demonstrated, deaf and hard of hearing chil-
23 dren can learn and achieve to high levels when they
24 have full access to language and communication; are
25 taught by professionals with specialized training;
26 and have access to educational placements that rec-

1 ognize and provide for their language, communica-
2 tion, social-emotional, and academic needs.

3 (3) Deaf and hard of hearing children who are
4 identified early and receive appropriate early inter-
5 vention from specialized, qualified providers achieve
6 higher language and communication outcomes. How-
7 ever, currently, early intervention services typically
8 are not provided in a timely manner and severe
9 shortages of specialized early intervention profes-
10 sionals result in many deaf and hard of hearing chil-
11 dren not reaching their developmental potential.
12 Similarly, research demonstrates that students with
13 visual disabilities are among the highest performing
14 students with disabilities in terms of academic
15 achievement, and yet they are among the least em-
16 ployed, even after successful accomplishment of post-
17 secondary academic objectives.

18 (4) Likewise, children who are deaf-blind have
19 the same capacity to learn and achieve as any other
20 children. However, they must have ongoing access to
21 the same environmental and educational information
22 that their sighted and hearing peers can access auto-
23 matically. These children require direct learning ex-
24 periences, including hands-on experiences and in-
25 tense involvement in educational routines and activi-

1 ties. They must receive specialized direct instruction
2 in their preferred mode of communication in a range
3 of academic and functional areas.

4 (5) Students who are deaf, hard of hearing, or
5 deaf-blind require more language and communica-
6 tion access and support to acquire skills than they
7 are currently receiving. It has been the Department
8 of Education's position since 1992 that "[a]ny edu-
9 cational setting that does not meet the communica-
10 tion and related needs of a child who is deaf does
11 not allow for the provision of [a Free Appropriate
12 Public Education] and cannot be considered the
13 [Least Restrictive Environment] for that child".

14 (6) Moreover, a principal way that sighted,
15 hearing students acquire knowledge and skills is
16 through incidental learning, naturally observing oth-
17 ers and the environment. Deficits in incidental learn-
18 ing leave students with sensory disabilities behind in
19 an array of skill areas. In addition to core aca-
20 demics, deaf and hard of hearing students, for exam-
21 ple, must also receive specialized instruction and
22 services designed to maximize their capacity to learn
23 effectively and live productively and independently.
24 Similarly, students who are blind or visually im-
25 paired must also receive instruction in the expanded

1 core curriculum, a comprehensive array of special-
2 ized instruction and services maximizing the capacity
3 of students with visual disabilities to learn effectively
4 and live productively and independently.

5 (7) The widespread use by States of the Indi-
6 viduals with Disabilities Education Act's disability
7 categories has led to a sizable undercount of stu-
8 dents with sensory disabilities and, consequently, a
9 lack of recognition of the extent of the systemic need
10 for the delivery of appropriate instructional services
11 meeting their unique needs. This occurs in large
12 measure because students with sensory disabilities
13 who also have additional disabilities are frequently
14 formally classified as having multiple disabilities.
15 Consequently, their vision, hearing, or concomitant
16 vision and hearing disabilities and related support
17 needs are not fully acknowledged.

18 (8) Children who are deaf-blind should receive
19 one-to-one services from interveners, who have train-
20 ing and specialized skills in deaf-blindness.
21 Intervenors play a critical role in the provision of a
22 Free and Appropriate Public Education, because
23 they provide access to the information these children
24 need in order to learn and develop concepts, to facili-
25 tate their communication development and inter-

1 actions in their preferred mode of communication,
2 and to promote their social and emotional well-being.

3 (9) A national resource in visual disabilities is
4 needed to supplement the work of State and local
5 educational agencies through student enrichment ac-
6 tivities; to support teachers of students with visual
7 impairments and related services personnel through
8 state-of-the-art continuing education opportunities;
9 and to spur the further advancement of instructional
10 services for students with visual disabilities through
11 scientific research and evidence-based best practices.

22 **HARD OF HEARING REGARDLESS OF CLASSIFICATION.—**
23 Section 612(a)(3) (20 U.S.C. 1412(a)(3)) is amended by
24 adding at the end the following:

1 “(C) SERVING CHILDREN WHO ARE DEAF
2 OR HARD OF HEARING.—When a State classi-
3 fies children by disability, the State, in com-
4 plying with this subsection, identifies, locates,
5 and evaluates children who are deaf or hard of
6 hearing and who are, or may be, classified in a
7 disability category other than hearing impair-
8 ment and provides (without prejudice to such
9 classification) special education and related
10 services to such children, including such serv-
11 ices determined appropriate based on proper
12 evaluation as would be provided to children
13 classified in the State as deaf or hard of hear-
14 ing.”.

15 (b) DATA COLLECTION AND REPORTING.—Section
16 618 (20 U.S.C. 1418) is amended by adding at the end
17 the following:

18 “(e) ACCOUNTING FOR DEAF AND HARD OF HEAR-
19 ING STUDENTS.—In addition to the data collection and
20 reporting requirements of subsections (a) through (d) and
21 subject to such provisions, the State and the Secretary of
22 the Interior shall, with respect to children classified in a
23 disability category other than hearing impairment or deaf-
24 ness, include the number and percentage of such children

1 in each disability category who are also deaf or hard of
2 hearing.”.

3 (c) CHILD WITH A DISABILITY.—Section
4 602(3)(A)(i) (20 U.S.C. 1401(3)(A)(i)) is amended by
5 striking “hearing impairments (including deafness),
6 speech” and inserting “who is deaf or hard of hearing,
7 or with speech”.

8 **SEC. 102. STATE PLANS.**

9 Section 612 (20 U.S.C. 1412) is amended by adding
10 at the end the following:

11 “(g) ADDENDUM CONCERNING STUDENTS WHO ARE
12 DEAF OR HARD OF HEARING.—

13 “(1) IN GENERAL.—Notwithstanding the provi-
14 sions of subsection (c), a State shall not be consid-
15 ered in compliance with this section unless, not later
16 than two years after the date of the enactment of
17 the Alice Cogswell and Anne Sullivan Macy Act, the
18 State files with the Secretary a written addendum to
19 the plan required by this section describing how the
20 State ensures that—

21 “(A) children who are deaf or hard of
22 hearing (regardless of the State’s use of dis-
23 ability categories or the extent to which deaf or
24 hard of hearing children may be classified in
25 disability categories other than hearing impair-

1 ment or deafness) are evaluated by qualified
2 professionals, using valid and reliable assess-
3 ments, for such children’s need for instruction
4 and services meeting their unique language and
5 communication, literacy, academic, social and
6 related learning needs, including instruction
7 which may be needed by children without dis-
8 abilities or with other disabilities but which
9 must be specifically designed, modified, or deliv-
10 ered to meet the unique language and commu-
11 nication and academic and related learning
12 needs of children who are deaf or hard of hear-
13 ing;

14 “(B) there is sufficient availability of per-
15 sonnel within the State qualified to provide the
16 evaluation and instruction described in subpara-
17 graph (A) to all children within the State re-
18 quiring such instruction; and

19 “(C) all children who are deaf or hard of
20 hearing within the State who need special edu-
21 cation and related services, whether or not such
22 children have other disabilities, receive such in-
23 struction and are not being served solely in ac-
24 cordance with section 504 of the Rehabilitation
25 Act of 1973 (29 U.S.C. 794).

1 “(2) CONTENTS.—In preparing the addendum
2 described in paragraph (1), the State shall—

3 “(A) specifically address how the State
4 meets the needs of deaf and hard of hearing
5 students to support appropriate, measurable
6 progress in language development, including
7 American Sign Language and spoken English
8 with or without visual supports, and including
9 the provision of school-related opportunities for
10 direct communications with peers and profes-
11 sional personnel in the child’s language and op-
12 portunities for direct instruction in the child’s
13 language, as well as instruction in audiology,

23 who are deaf or hard of hearing, including par-
24 ents, schools for the deaf, consumer and advo-
25 cacy organizations, State commissions of the

1 deaf, researchers, teachers of students who are
2 deaf or hard of hearing, and others the State
3 may identify.”.

4 **SEC. 103. EVALUATIONS.**

5 Section 614(b) (20 U.S.C. 1414(b)) is amended by
6 adding at the end the following:

7 “(7) CHILDREN WHO ARE DEAF OR HARD OF
8 HEARING.—

14 tion proficiency levels, including expressive, re-
15 ceptive, and pragmatic skills, and ability to ac-
16 cess grade level content in the student’s pri-

20 and written English. Determination of the need
21 for special education and related services shall
22 include evaluation of such children’s unique
23 learning needs, including needs for direct com-
24 munication, without an intermediary such as an
25 interpreter, with peers and professionals in the

1 child’s primary language, including American
2 Sign Language and spoken English with or
3 without visual supports, and instruction which
4 may be needed by students without disabilities
5 or with other disabilities but which must be spe-
